BARNETT DETAILS WORK OF MARINE BRIGADE

WASHINGTON, April 23.—Of the 8,000 officers and men composing the marine brigade when it and other units of the second division were thrown into the fighting near Chateau Thierry last June, 12 officers and 2,013 men either were killed or wounded before the brigade was relieved at the end of the month. While in this action the marine corps, under the command of Maj. Gen. Barnett, captured the important town of Bourbous. In discussing these casualties, Maj. Gen. Barnett, commander of the marine corps, said published statements from army officers that the marines were not in the fighting at Chateau Thierry were misleading. The marines, he said, were not actually in the town itself, but fought in the Chateau Thierry sector in the action known officially as the battle of Chateau Thierry.

COOL RICE ON STAND.

WASHINGTON, April 23.—Col. Sedgwick Rice, commander at the Fort Leavenworth disciplinary barracks, today appeared as a witness before the committee of the American Bar association, which is investigating the army court-martial system.

Oh! My Face

People who have impure or impoverished blood should be careful to take only a temperance remedy made of wild roots and barks such as Dr. Pierce's Golden Medical Discovery is and has been for nearly 50 years. Ingredients printed on wrapper.

The first day you start to take this reliable medicine, impure germs and accumulation begin to separate in the blood and are then expelled through the eliminative organs.

In place of the impurities, the arteries and veins gradually get fresh vitalized blood and the action of this good blood on the skin means that pimples, boils, carbuncles, eczema, rash, acne and all skin blemishes will disappear.

Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, backache, headache.

Get Dr. Pierce's Golden Medical Discovery to-day at any medicine dealers, in tablet or liquid form, or send 10c for trial package to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Occasionally one should "clean house" with castor oil or tiny pills made up of the May-apple, leaves of aloe and root of jalap, first put up by Dr. Pierce and now sold by almost all druggists in this country as Doctor Pierce's Pleasant Pellets. Always convenient to take.

STONE SEEKS BIG LEAGUE CHAIR IN BEER WIRE PLAN

Associated Press Leader Back From Europe Discusses World Affairs and Scouts Idea of Break in Ranks.

NEW YORK, April 23.—Development of intercommunication promises a chance that the league of nations may accomplish its object of insuring world peace, Melville E. Stone, general manager of the Associated Press, recently returned from the peace conference, told the members of the news association at their annual meeting and luncheon here.

Mr. Stone doubted if anybody knew whether the league project would succeed, but said the representatives of the associated powers had addressed themselves to the task of organizing, intended if possible, to prevent a recurrence of war, which, he said, had reached a point, through the advance of science, where a future conflict would well-nigh mean human annihilation. By the modern processes of intercommunication, however, the nations were inevitably brought closer together, he said, extending men's vision and giving a "little promise" that the failure of the congress of Vienna 100 years ago might be followed "by something like success."

It was a mistake, Mr. Stone said, to imagine that there had been an unpleasant or angry situation between the peace envoys of the associated powers, who had brought to their task a sincere desire to solve a great problem. Despite the German hopes of differences among the conquerors, he added, they had agreed as to principles.

Urges Plan

Describing a visit to the devastated regions of France, Mr. Stone declared it had been "born by the most malignant and outrageous ravages the world had ever known." To bring about its rehabilitation, he asserted, extension of long-time credits by American manufacturers was essentially a scheme which he said could be carried out through the banks, with the federal reserve system to fall back upon in case of emergency.

In keeping with the pan-American spirit of the meeting, inspired by the recent addition of 25 South American newspapers to the Associated Press membership, Mr. Stone stated that the extension of the service gave assurance of the unity of the Western hemisphere. In like manner, he said, the organization had been a material factor in cementing the relations of the northern and southern divisions of the United States, a union which made possible the national spirit evidenced in the Spanish-American war and re-emphasized in the world conflict.

Frank B. Noyes, president of the association, who acted as toastmaster, expressed the belief that when the peace terms were made public it would be found that despite all the claims of national interests, America "will have made good her word."

"With nations, as with individuals," he said, "it seems both unfortunate and inevitable that succeeding a period of moral exaltation comes a reaction in which our less admirable traits come, momentarily at least, to the surface and appear to dominate."

Pessimism to Pass.

"I have the conviction, the firm conviction, that this feeling of pessimism will be very evanescent, and indeed that it already is passing, and that we will face our destinies with firm and cheerful hearts."

The optimistic came as a result of the virtual surrender of the enemy and was based on the agreement of our country and our associates, the allies, that we would grant Germany and her allies a place within certain definite limitations.

"The men who are conferring in Paris are facing the greatest decisions that have confronted mankind since the beginning of recorded time," he said. "They are marking out the path the nations must follow in order that war may be outlawed and that the world may be a decent place to live in and in which we, our children and our children's children shall never again go through the awful agony, the deadly welter of blood in which we have been wallowing since August of 1914."

May these deliberations divinely guided give to a waiting world that peace of God which passeth all understanding, putting our hearts and minds at rest, and remaining with us evermore.

On this annual occasion, it is our custom to drink but one toast: "I give you the health of the president of the United States, Woodrow Wilson."

Mr. Noyes, before introducing Mr. Stone, paid tribute to the working staff of the Associated Press in Europe, as "among the heroes of the world war."

Wherever the fighting was, the (overseas) devotion, the great danger most imminent, on the battle line itself, with the advance or with the retreat, in the most dangerous cities, miles over very rough ground. This frightened animal also dragged him through a pond of considerable width and depth.

PINE BLUFF TRUCK MEN TO FIGHT SPECIAL TAX

PINE BLUFF, Ark., April 23. (Sp.)—The truck men of this county will fight the levy of a special tax on trucks and commercial cars on the grounds that it is unconstitutional.
